Hi,

My career in the software industry has been driven by a strong commitment to growth, excellence, and success. Over the years, I have had the privilege of designing and architecting products and platforms from the ground up, building a diverse portfolio across both consumer and enterprise sectors. These products have reached millions of customers and generated billions in revenue. I have held various roles, including Technical Program Manager, Software Engineer, Solutions Architect, Customer Support Specialist, Engineering Manager, and Engineering Leader. Each of these positions has provided valuable exposure and learning, contributing to my expertise in engineering best practices, processes, and effective talent acquisition.

My journey has evolved from owning individual product components to managing a team of ~140 people, overseeing budgets, planning, technology and tool evaluations, and participating in board meetings. My leadership in Omni Experience has been pivotal in driving top-line revenue growth, managing a team entrusted with a substantial budget to innovate and deliver exceptional consumer experiences. My role leverages a cloud-native platform and modern development stacks, reflecting my commitment to utilizing cutting-edge technology to surpass customer expectations

Domains I have worked across multiple domains such as PAYMENTS, OMNI CHANNEL, E-COMMERCE, SUPPLY CHAIN, CLIENT PLATFORM, LICENSING, SECURITY, SEMICONDUCTOR, CONSUMER & ENTERPRISE PRODUCTS, MOBILE PLATFORM; CRYPTOCURRENCY; CRM.

Technologies: All the above work gave me opportunities to learn new technologies – Java, TypeScript, Android, iOS, TypeScript, React, NodeJS, C#, Python, SQL Server, NoSQL, C++, COM. Design and Architecture, Enterprise Software and Consumer Software

Leadership Skills - Team Leadership; People Management; Annual Operating Plan, Innovation; Program Management, Engineering Management, Budgetary Planning, Tech Strategy and Vision, Agile practices in Project Management, Org Design, Hiring Practices, Performance Management Practices; Delivery Management.

Conferences, Awards, Presentations: I have represented the company I worked at in Tech Conferences, presented papers in international conferences and domestic conferences. Few of note are ELETS Conference in 2024, Frost and Sullivan Customer Enhancement Award for pioneering a high data product solution and Presented 'Improved Data Acquisition' at the AEC/APC International Symposium in Taiwan.
