

SUMMARY

My career in the software industry has been driven by a strong commitment to growth, excellence, and success. Over the years, I have had the privilege of designing and architecting products and platforms from the ground up, building a diverse portfolio across both consumer and enterprise sectors. These products have reached millions of customers and generated billions in revenue. I have held various roles, including Technical Program Manager, Software Engineer, Solutions Architect, Customer Support Specialist, Engineering Manager, and Engineering Leader. Each of these positions has provided valuable exposure and learning, contributing to my expertise in engineering best practices, processes, and effective talent acquisition.

My journey has evolved from owning individual product components to managing a team of ~140 people, overseeing budgets, planning, technology and tool evaluations, and participating in board meetings. My leadership in Omni Experience has been pivotal in driving top-line revenue growth, managing a team entrusted with a substantial budget to innovate and deliver exceptional consumer experiences. My role leverages a cloud-native platform and modern development stacks, reflecting my commitment to utilizing cutting-edge technology to surpass customer expectations.

Domains I have worked across multiple domains such as PAYMENTS, OMNI CHANNEL, E-COMMERCE, SUPPLY CHAIN, CLIENT PLATFORM, LICENSING, SECURITY, SEMICONDUCTOR, CONSUMER & ENTERPRISE PRODUCTS, MOBILE PLATFORM; CRYPTOCURRENCY; CRM.

Technologies: All the above work gave me opportunities to learn new technologies – Java, TypeScript, Android, iOS, TypeScript, React, NodeJS, C#, Python, SQL Server, NoSQL, C++, COM. Design and Architecture, Enterprise Software and Consumer Software, Observability, Elastic Search, Kibana, DataDog, CI/CD, Monitoring, Support.

Leadership Skills - Team Leadership; People Management; Annual Operating Plan, Innovation; Program Management, Engineering Management, Budgetary Planning, Tech Strategy and Vision, Agile practices in Project Management, Org Design, Hiring Practices, Performance Management Practices; Delivery Management.

Conferences, Awards, Presentations: I have represented the company I worked at in Tech Conferences, presented papers in international conferences and domestic conferences. Few of note are ELETS Conference in 2024, Frost and Sullivan Customer Enhancement Award for pioneering a high data product solution and Presented 'Improved Data Acquisition' at the AEC/APC International Symposium in Taiwan.

In my next role/venture

In my next role or venture, I aim to address meaningful and impactful customer or business challenges. Leveraging my experience, I am eager to contribute to the success of the organization by applying my expertise in technology and delivery, as well as my business acumen.

NOTABLE PROJECTS & WORK

CaratLane Trading Limited

- Built an Innovation Platform where ~7000 employees can submit ideas and invite collaborators to take ideas to completion.
- Designed the Event Fidelity, Rate Limiting, Real User Monitoring platform
- Designed and built a configurable, extensible rule-based Loyalty Platform

Technologies: Google Site, Google App Script, Node JS, Ruby on Rails, Microsoft Clarity, React JS, Kafka, RabbitMQ, AWS S3, AWS Lambda, AWS EC2, AWS Redshift

Team Size: 140

PayPal India Private Limited

- Crypto Currency Platform - Buy/Sell Crypto, Swap Cryptos, Stable Coins and Checkout with Crypto
- Payment Integrations – MasterCard Direct Connect, Visa Direct Connect, China Union Pay

Technologies: Java, SQL, Smart Contracts, Ethereum, Solana, Kafka, RabbitMQ, GCP, REST APIs

Team Size: 57

Flipkart India Private Limited

- Mapping the routes taken by On-field delivery agents and ensure delivery fidelity
- Expanding Supply Chain network by integrating with Kirana Stores and Lockers
- CRM software for B2B business merchants.

Technologies: Java, React, SQL, Android, iOS, REST APIs
Team Size: 22

Symantec Corporation

- Cloud Security software for small medium enterprises
- Identity Safe: Password Management solution

Technologies: Java, Android, iOS, Objective C, Toku DB, Mongo DB, Elastic Search, Couch DB, Cassandra, C++, APIs
Team Size: 17

Microsoft Corporation

- Silverlight 5 – Memoization and COM integration. Built a Sudoku App for the product launch.
- Technologies: C#, C++, COM, DCOM, XAML, Web Services

HCL Technologies

- Equipment Data Acquisition from Semiconductor equipments.

Technologies: C#, C++, COM, DCOM, WSDL, XML/XSLT, SQL Server, CORBA

EMPLOYMENT

CARATLANE PVT LTD, A TATA COMPANY

Technology Leader

Sep 2023-Current

- Manager a team of ~140 people of Sr Managers, Managers, Quality, PMO, Architects. And a budget of ~100 Crores for the function.
- Contribute to top line revenue growth applying various levers of Omni Experience.
- Lead the Consumer Experiences and In-Store experiences. Manage a Cloud Native Platform. Exposure to Data Engineering. Leverage Modern Dev Stack to deliver wow experiences.
- On the business side, the AOP budgeting for FY24-25, understanding Demand Gen/Digital Marketing and attending the board meetings were all great learning exercises. These meetings gave me an insight into the inner working of the company, challenges and seeds for the future.
- On the tech side, the work involved in building a loyalty platform, Events Fidelity, Real User Monitoring, Spark Tank (Ideas Platform), Data Security Framework, A/B Framework, Rate limiting framework, handling solves for DDOS attacks were all great initiatives we did together, delivered value and excited the techie in me.
- On the process side, exposure to the various auditory and compliance processes, driving a structure to the audit processes, rationalizing business and operation meetings, agile project planning & boards, Quarterly Offsite planning meetings, support rosters, release process changes are few things of note.

PAYPAL INDIA PVT LTD

Sr. Engineering Manager

Sep 2017-Aug 2023

- Built Crypto platforms from scratch, generating **USD 4 Billion TPV**. Managing multiple teams to build **Cryptocurrencies Core Payments & Platform** products to enable next-gen Digital Currencies.
- **Expanding Payments Networks** to optimize Cost and build strategic networks for EM Markets such as Brazil and China. Build integrations with card/bank networks across the world enabling smart, reliable and optimal routing.
- Responsible for **100 USD Million** Transaction Expenses optimization initiative. Identify opportunities through data analysis.
- Manage a team of Software Architects, Engineers, and Managers.

Flipkart India Private Limited

Engineering Manager

Jun 2015-Aug 2017

- Building a **Parallel Logistics Network** (FLEX) with Partners and third-party vendors to reduce Cost Per Shipment.
- Built a **CRM product** for customers using Logistics operations. Shaping Flipkart Logistics Operations behavior through multiple **CX channels**.
- Managing the **mobility charter** for Flipkart Logistics with focus on improving mobile penetration. Solved multiple problems including continuous tracking of Field Executives, sync optimization, making operations efficient.
- Exposure to Android, Java, React Frameworks

Symantec Corporation

Engineering Manager

Apr 12 – Jun 2015

- Built the next-gen **Norton Security and Device Management** software for SMEs.
- **Managed Norton Identity Safe**, a cross-platform product. A 4-Star App in app stores.
- Experience to security, encryption and Data Protection. Exposure to Android, iOS, Windows and MAC.

Microsoft Corporation

Technical Program Manager

Jul 2009-Nov 2011

XAML Platform, Windows (Silverlight 5)

- Owned Silverlight XAML Parser and XAML Input for Silverlight 5.
- Presented [Custom markup Extensions](#) on 'Silverlight TV' on Channel 9 MSDN
- Developed applications for Windows Build, MIX events – [Pivot Viewer](#) in Silverlight 5, [Building In-Browser experience](#) with Silverlight 5
- Authored a [Sudoku game](#) using XAML for Windows 8. The application was covered in [End Gadget](#) for Win8 review.

Microsoft Product Activation

- One of the Program Managers in MSIT CIO Top 10 programs in FY' 11 – 'Next Generation Product Identification Program'

Microsoft Corporation

Development Lead Engineer

Dec 2006-Jun 2009

Microsoft Product Activation

- Re-Architected Remote Desktop (RDP) License Management (Terminal Services License Management)
- Data-Centric applications and high-performance data-oriented systems with high customer and partner impact.
- Developed code that catered to 56 million users and identified 23 million non-genuine users. Devised solutions to handle piracy issues for Microsoft.
- Awarded the 'IT Pro Award of Excellence - Partnership'

HCL Technologies

Member Technical Staff

Oct 2003- Dec 2006

- Built a high data product solution in the semiconductor manufacturing industry.
- *Won the Frost and Sullivan Customer Enhancement Award in 2005* for pioneering a high data product solution in the semiconductor manufacturing industry.
- Exposure to various functions – Development, Build Engineering, Functional Spec Writing.

Awards/Certifications/Publications/Conferences

- Multiple Spot awards at PayPal for delivering various products successfully.
- Core member in the company-wide "Ways of Working Initiative" focused on drawing strategies towards 1 billion Users at PayPal. A PayPal-McKinsey initiative.
- *Won the Frost and Sullivan Customer Enhancement Award in 2005* for pioneering a high data product solution in the semiconductor industry.
- Conference - Presented 'Improved Data Acquisition' at the *AEC/APC International Symposium in Taiwan in 2006*.
- PMP Certified Professional

EDUCATION

THIAGARAJAR COLLEGE OF ENGINEERING, INDIA

1999 –2003

- Bachelor of Engineering, Computer Science (Passed with Distinction)

CERTIFICATIONS

- Data Engineering Professional in Apr 2024
- PMP Certified Professional

Publications/Conferences

- Conference - Presented 'Improved Data Acquisition' at the *AEC/APC International Symposium in Taiwan in 2006*.
- My Paper on "Failure less Government offices" was published in the '*Tamil Nadu State Council of Science and Technology' journal 2002*.

DOMAINS - CONSUMER & ENTERPRISE PRODUCTS, OMNI COMMERCE, E-COMMERCE, PAYMENTS, E-COMMERCE, SUPPLY CHAIN, CLIENT PLATFORM, LICENSING, SECURITY, SEMICONDUCTOR

TECHNICAL EXPERIENCE

Side-Projects - <https://github.com/clicksuku/SundarkpCode>

Technologies – C++, C#, COM, Java; Android, HTML/JQuery/CSS; XML, XSL; SQL; Agile, JIRA, MS Project;
